PROFESSIONAL SUMMARY

Software Engineer specializing in frontend development with professional experience shipping production-grade web applications in Next.js, React 19, and TypeScript. Independently delivered scalable marketplace and booking platforms for UK-based businesses, with deep strength in frontend architecture, server-state management, API integration, and performance optimization.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+), SQL

Frontend: Next.js (App Router), React 19, Tailwind CSS, Shadcn/UI, Radix UI

State & Data: TanStack Query (React Query), Redux Toolkit, Context API

Forms & Validation: React Hook Form, Zod

Backend & APIs: Node.js, Express.js, REST APIs, Axios

Databases: MySQL, MongoDB

Auth & Security: JWT, OAuth, OTP Verification, Role-Based Access Control (RBAC)

Tools & Practices: Git, GitHub, Postman, SEO & Performance Optimization, Responsive Design, Component Architecture, SDLC

PROFESSIONAL EXPERIENCE

Frontend Developer

January 2025 – December 2025

XDezo Technology — United Kingdom (Remote)

- Frontend development across **three production marketplace and SaaS platforms** using Next.js, React, and TypeScript, owning architecture from design through release.
- Architected server-state management with **130+ and 140+ TanStack Query hooks**, enabling efficient data fetching, caching, synchronization, and mutation handling at scale.
- Built secure authentication and authorization systems including **JWT, OAuth, OTP verification, and role-based access control** across multiple user roles.
- Integrated complex REST APIs and delivered booking, business-management, analytics, and content-management workflows for live, customer-facing products.
- Designed reusable component systems and SEO-optimized, responsive interfaces while collaborating with backend engineers, designers, and stakeholders throughout the SDLC.

SELECTED PROJECTS

RestroNow — Restaurant Discovery & Booking Platform

restronow.co.uk

Stack: Next.js 15, React 19, TypeScript, TanStack Query, React Hook Form, Zod, Tailwind CSS

- Primary frontend engineer for a dual-sided platform serving both diners and restaurant owners.
- Architected a scalable data layer with **140+ custom TanStack Query hooks** handling caching, synchronization, pagination, and mutations.
- Built advanced search with location-based discovery, cuisine filtering, and URL-synced state, plus **drag-and-drop menu management** with live API synchronization.
- Delivered a comprehensive owner dashboard (bookings, offers, reviews, analytics) and multi-step registration with schema-based validation.

XdPage — UK Local Services Marketplace

xdpage.co.uk

Stack: Next.js 15, React 19, TypeScript, TanStack Query, React Hook Form, Zod, Tailwind CSS

- Built the complete frontend for a UK local-services marketplace **from the ground up** with strongly typed TypeScript interfaces.
- Architected a scalable API integration layer using **130+ custom TanStack Query hooks**.
- Implemented full authentication: JWT login, Google OAuth, OTP verification, password recovery, and secure session management.
- Built role-based dashboards with route protection, location-based service discovery, and drag-and-drop media management.

Book My Massage — Massage Marketplace Platform

bookmymassage.co.uk

Stack: Next.js 15, React, TypeScript, Tailwind CSS, JWT, Recharts, REST APIs

- Built the complete frontend for a multi-role marketplace connecting customers with massage centers across multiple locations.
- Engineered the full **booking lifecycle**: appointment scheduling, booking management, cancellations, and rescheduling.
- Developed protected dashboards for administrators, business owners, and customers covering services, pricing, hours, media, and content.
- Implemented advanced search and filtering, real-time messaging, review systems, and analytics dashboards (Recharts) with SEO-optimized rendering.

EDUCATION

BSc (Hons) Computing — First Class Honours · Informatics College Pokhara

Graduated September 2025

Relevant areas: Software Engineering, Web Development, Database Systems, Object-Oriented Programming, System Analysis & Design.

Award: AAA Scholarship for academic excellence (final-year merit).
